SAUNA AND HOT TUB

HARVIA

Sauna & Spa

Enjoy ultimate relaxation and recovery with hand-made Harvia Legend sauna and hot tub

HARVIA LEGEND SAUNA

Harvia Legend sauna honors old Finnish traditions and includes all the elements that make sauna and sauna-bathing beyond relaxing and magical. The dark interior of the Harvia Legend sauna makes a cozy atmosphere where you want to enjoy the silence while soft steam nourishes your skin. The large and spectacular panoramic window offers endless opportunities to enjoy the scenery while taking a sauna. The sauna has been designed by carpenter Mika Pitkänen and represents the high quality of craftsmanship.

The sauna comes as a ready-made on-site module, with plug and play electricity connections. The Legend sauna includes pre-installed, atmospheric LED lights and liftable benches which makes cleaning of the sauna easy. Harvia's Legend sauna is insulated, so the sauna is energy efficient and suitable for even colder areas. Insulation also speeds up heating and affects the retention of heat in sauna.

HARVIA LEGEND DRESSINGROOM

Harvia Legend sauna is available with or without a dressing room. Harvia Legend dressing room is made from the same material as the Legend sauna, and it fits into the sauna perfectly and seamlessly. The dressing room module has four walls and can be bought separately without the sauna or together with the sauna. The Legend dressing room can also be retrofitted.

HARVIA LEGEND HOT TUB

While enjoying the soft steams in a Legend sauna why not take a dip in the hot tub? Harvia Legend Hot tub completes your sauna experience and takes your relaxation to another level. The dark outer surface and small details of the hot tub matches completely with the Legend sauna.

The Legend hot tub is easy to maintain with a large plastic pool inside. This time-resistant model can fit in 4 to 6 persons and is suitable for versatile use from evening parties to family moments.

The Legend hot tub features a Legend stove that is easy to maintain. Its large glass hatch allows you to see easily if more wood needs to be added while you can enjoy the roaring fire of the stove and warming water of the hot tub.

HARVIA ADDITIONAL HEATER

Harvia's additional heater is high-quality electric heater that is made and designed in Finland to be used outdoor with hot tubs. The additional heater keeps water temperature steady and fastens the heating of the water. When the additional heater is used together with the hot tub's stove it fastens the water heating. You can also use the heater independently to maintain the water temperature.

The additional heater is safe to use and ecological solution for heating the hot tub. The heater is easy to connect to the stove and plug to the main electricity. You just need to adjust the heater temperature to suit your needs.

Carefully selected materials and components ensures the high-quality and long product life of the heater. The frame of the heater is completely made of strong stainless steel and the heating elements are made of titan. The heater is easy to maintain, and spare parts are available if needed.
